Welcome to Techsylvania

2026

Where Ideas Shape the Future

Thirteen editions in, and this is where it all happens. Techsylvania 2026 brings together the boldest thinkers, the most disruptive technologies, and the people turning ideas into reality — one conversation, one connection, one breakthrough at a time.

From the Center Stage to Startup Alley, the B2B Matchmaking Area to the Impact Stage, every space is built for the moments that matter — the ones that shift your perspective, open a door, or set something in motion.

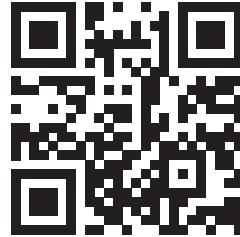

Welcome to Techsylvania 2026. Let's make it count.

APPS & QR CODES

ENJOEE — Official Event App

The official Techsylvania event app. Access the agenda, sign up for workshops, schedule matchmaking meetings, connect with other participants, and stay up to date with everything happening during the conference.

INTERCOM — Live Support & Feedback

Reach us directly on Intercom. Share feedback, ask questions, and be part of the conversation. Let's shape the future of Techsylvania together.

INSTAGRAM — Find Your Memories

Scan the QR code and explore our Instagram gallery. Discover snapshots of innovation, inspiring talks, and unforgettable experiences.

X — Join the Conversation

Unleash your tweets at Techsylvania! Follow us on X and be part of the conversation.

CONFERENCE AGENDA DAY 1

Step into two days of bold ideas, breakthrough technology, and the people driving it all forward. Tap into a world of insights, strategies, and connections that don't just inspire — they move you closer to your next big move. This is where ideas shape the future.

CONFERENCE AGENDA DAY 2

Day 2 is where it gets even better.

More bold ideas, deeper conversations, and the kind of connections that stick. Push your thinking further, go beyond the expected, and let the energy of the room do the rest.

The future doesn't slow down — and neither do we.

Your ambition deserves Prime!

Sunt oameni care se opresc la „foarte bine”.
Și oameni pentru care „foarte bine” e doar începutul. Pentru aceștia din urmă am creat Prime, o nouă abordare bazată pe recunoașterea unui adevăr simplu: succesul tău merită un alt nivel de atenție.

Te invităm să descoperi toate beneficiile și serviciile exclusiviste PRIME:

- **Bancher dedicat**, care îți oferă informații despre produsele financiare și serviciile de investiții disponibile
- **Prioritate absolută** când ne contactezi, fie că folosești canalele digitale, fie call center-ul dedicat
- Acces în bancă la un **spațiu dedicat**, gândit pentru un dialog confortabil

aily

Create Your Own SQL Agent

Luis Castejón

Machine Learning
Engineer Aily Labs

We'll build a SQL Agent from scratch using Aily's tech stack. We'll use PydanticAI to create the agent harness, define its behavior, prepare the right context, and connect the tools it needs to solve SQL tasks. From the beginning, we'll make observability part of the build process by instrumenting the agent with Langfuse so we can trace executions, inspect failures, and iterate with real visibility into what the system is doing.

The session follows the full development loop from first prototype to systematic improvement. After getting the agent working, we'll use Langfuse again to run production-ready evals, compare iterations, and measure quality in a structured way.

From Papers to Precision: Building Biomedical Intelligence at Scale

A practical look at the AI pipelines behind biomedical intelligence: extracting entities, relations, evidence and claims from scientific literature to build scalable knowledge graphs. The session will show how this graph-based layer enables claim tracing and provenance, supports Hybrid RAG by combining structured knowledge with unstructured biomedical text and unlocks inference across data to surface connections, strengthen retrieval and accelerate insight generation.

WE SAVED YOU A SEAT. READY TO BRING YOUR IDEAS TO LIFE?

Bring your passion, skills, and fresh perspective.
Let's innovate together

Join us and make an impact.

Together we create incredible™

We solve the problems that matter most. Our teams work at the intersection of product engineering and intelligent computing—building breakthrough solutions for Fortune 500s and industry leaders who refuse to be left behind.

When you join 3Pillar, you'll work on complex engineering challenges across four core areas:

- **AI-Led Product & Platform Modernization** — Evolve legacy systems with intelligence and resilience.
- **Digital Products & Experiences** — Build AI-powered products that drive business value.
- **AI-Ready Data** — Make data trusted, usable, and ready to power intelligence.
- **AI-Powered Operations** — Reimagine how operations run using AI.

What drives us:

Product Engineering Mindset — We leverage unique product-centric methodologies to solve clients' most complex software engineering challenges

Transformative Impact — We combine strategic alignment with urgency and relentless focus to achieve game-changing results

Innovation-Led — We embrace innovation as our north star and strive to be one step ahead with intelligent software, data & AI, and cloud

Tencent Cloud, one of the world's leading cloud companies, is committed to creating innovative solutions to resolve real-world issues and enabling digital transformation for smart industries. Through our extensive global infrastructure, Tencent Cloud provides businesses across the globe with stable and secure industry-leading cloud products and services, leveraging technological advancements such as cloud computing, Big Data analytics, AI, IoT, and network security. It is our constant mission to meet the needs of industries across the board, including the fields of gaming, media and entertainment, finance, healthcare, property, retail, travel, and transportation.

One platform to develop, deploy, and scale AI workloads

From prototype to production, Runpod gives teams everything they need to run custom models on GPUs in minutes, not months.

Workflows that grow with you

DEVELOP

Go from idea to deployment in a single flow

DEPLOY

Launch globally with low latency and enterprise-grade reliability

SCALE

Spin up one or hundreds of GPUs across 31 regions

Everything in one place

Pods

Dedicated GPU instances for development, training, and persistent workloads

Serverless

Autoscaling inference with scale-to-zero and sub-200ms cold starts

Instant Clusters

Multi-node compute for distributed training and large batch jobs

Hub

One-click deployment of community AI repos and templates

Why teams choose Runpod

Speed

Average time to first deployment measured in minutes, not weeks

Simplicity

No DevOps overhead with transparent, usage based pricing

Scale

Multi-node compute for distributed training and large batch jobs

Production-ready from day one

500K+ developers

30+ global regions

Sub-200ms cold starts

99.9% uptime SLA

SOC2 II, ISO 27001, PCI DSS

BOOTH EXPERIENCES

Super Technologies, simply known as Super, is one of Europe's fastest-growing entertainment technology companies. As strategic partners of Techsylvania, beyond the sessions on stage, Super is hosting their own dedicated booth, where attendees can connect directly with engineers and recruiters.

A perfect opportunity to get a real feel for Super, explore current opportunities, and have the kind of conversations that can encourage you to be part of their journey of growth.

Visit UniCredit Bank stand, check what Prime service means to you and you receive a small gift.

3pillar

3Pillar is an AI transformation partner on a mission to help enterprises build the AI-native products and intelligent agents that will define the next era of business. With teams across North America, Europe, Latin America, and Asia, we work with the most ambitious companies in financial services, healthcare, media, and technology — helping them move faster, modernize boldly, and compete on their own terms. Our HelixAI platform and Helix Pods delivery model put our engineers at the center of real agentic transformation — doing work that is open, portable, and built to last. We are building the future of enterprise AI.

The RunPod team is at Techsylvania and would love to connect. If you're working with AI workloads and want to talk GPU infrastructure, deployment, or scaling, swing by the booth and let's talk.

Come meet the principal33 team and find out what it's like to work on complex, meaningful tech in energy, utilities, and aerospace. Whether you're exploring new opportunities or just curious about what they're building, stop by for a chat.

Come by the Aily Labs booth and meet the team behind the world's first AI Decision Intelligence platform, trusted by Fortune 500s to turn data into action.

Our stand is designed as a cozy and welcoming space where great conversations happen naturally. It's a friendly spot to exchange ideas, explore creativity, and connect with our team, while discovering some of the coolest branded goodies we've prepared for participants.

BOOTH EXPERIENCES

cyber_Folks™

cyber_Folks brings a bright yellow booth to Techsylvania, built around a simple message: helping businesses launch, scale, and stay online. Visitors can explore our hosting and Disaster Recovery solutions, meet the team behind the infrastructure, and join our interactive cash-grab challenge to collect cyber_Cache and exchange it for prizes. Join us for good vibes and plenty of swag!

ensemble

Explore how we're transforming QA testing for streaming platforms running on edge devices through automation, AI, and immersive technologies. Experience our platform in an interactive XR environment and discover new ways of interacting with connected devices. Dive deeper into a live demonstration showcasing device control, build deployment, automated testing, OCR, and validation powered by locally running AI models—keeping sensitive data private while reducing reliance on cloud services. Meet the team to discuss real-world challenges, upcoming innovations, and the future of intelligent, privacy-focused quality assurance.

Looking for a smarter cloud alternative? Visit Tencent Cloud and DataEdge stand to explore enterprise-grade cloud technology, competitive pricing, and local support in Romania. With Tencent Cloud's Frankfurt data center and 3 Availability Zones, companies can deploy resilient, scalable, and high-performance cloud environments close to the European market. Meet our dedicated technical team, discuss your

infrastructure and digital transformation needs, and benefit from a free initial assessment of your environment and requirements.

Brain Symphony brings immersive wellbeing to Techsylvania. Founded by Cosmin Cotia, Brain Symphony is a VR-based platform designed to help tech teams and high performers manage stress, prevent burnout, and optimize mental recovery through guided, immersive relaxation environments. Visitors to the Exhibition Area will experience live VR demos showcasing how Brain Symphony's innovative approach to corporate wellbeing aligns perfectly with the needs of today's fast-paced tech community.

Mindfulness Corner

Mindfulness Corner with Laura Calmore offers a moment of calm amid the conference. Laura Calmore, a Conscious Regenerative Mindfulness Facilitator, invites all attendees to drop in for guided mindfulness activities designed to reduce stress, restore focus, and reconnect with presence. Whether you need a brief pause between sessions or a deeper reset, the Mindfulness Corner provides an accessible, welcoming space to recharge throughout Techsylvania.

HYGIA

Hygia connects innovators with funding. Hygia is helping Romanian entrepreneurs and tech teams discover funding calls and financing programs tailored to their region and sector. At Techsylvania, Hygia will showcase how their approach to region-specific funding intelligence can unlock growth for startups and innovators. Whether you're seeking EU grants, national programs, or local initiatives, Hygia brings clarity to funding opportunities across Romania.

BOOTH EXPERIENCES

Drone Soccer brings innovation to life. Drone Soccer is a cutting-edge sport that combines technology, strategy, and interactive entertainment. At Techsylvania, visitors can watch live demos and even play in the Drone Soccer arena—a 6×3×3 meter cage where autonomous drones compete in real-time. Spectators and players will interact with this innovative concept, discovering how drone technology and AI-driven gameplay create the future of competitive sports. Top players win tickets to Techsylvania 2027. It's an unforgettable, hands-on experience that perfectly captures Techsylvania's spirit of innovation and exploration.

Wanted: Tech Superstars

AI Needs a Home: Building Europe's AI Future from Romania

Powered by infrastructure.
Powered by connectivity.
Powered by ambition.
Powered by **M247 Global**.

Meet Us at Techsylvania

Building the infrastructure
behind tomorrow's AI.

Discover our AI-ready
infrastructure, partnership
opportunities and
enterprise solutions.

Building the Infrastructure Behind AI

At M247 Global, we provide the digital foundation
that enables businesses to innovate, scale and
compete globally.

Our portfolio includes:

- AI-Ready Data Centres
- Enterprise Cloud
- Colocation
- Dedicated Infrastructure
- Global Connectivity
- IP Transit
- Disaster Recovery
- Professional Services

AI Doesn't Run on Ideas. It runs on infrastructure.

Every AI assistant.
Every Large Language Model.
Every autonomous agent.
Every inference engine.

**Relies on secure, resilient and scalable
infrastructure. Without it, AI is just code.**

The Next AI Success Story Will
Not Be Decided Only by Models.
It Will Be Decided by Infrastructure.

**Discover how resilient infrastructure
can accelerate your business.**

New Investments. Bigger Capacity. Bigger Vision.

- AI-ready infrastructure
- Expanded data centre capabilities (200 racks available)
- Disaster Recovery solutions
- Business Continuity services
- Enterprise-grade connectivity
- Global network reach
- Trusted infrastructure for mission-critical
workloads

Looking for More Than a Supplier? Let's Build Together.

Whether you're an enterprise, startup, software
company, AI innovator or technology partner, we're
here to help you build faster, scale smarter and
innovate with confidence.

We don't just provide infrastructure.
We create the foundation for innovation.
